

# Course Evaluation Summary

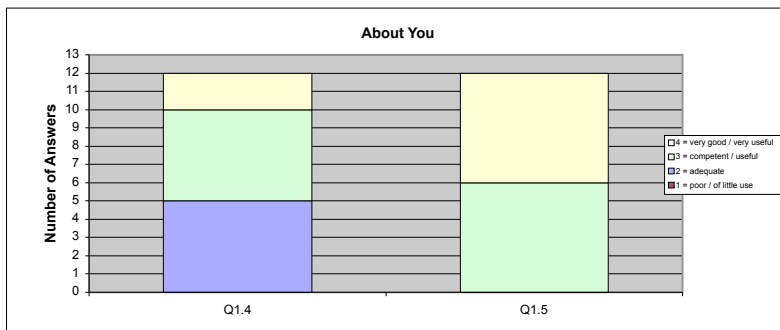

Company: **ICSE 2008 Tutorial**  
 Type of course: **T9: Mining Software Engineering Data**  
 Trainers name: **Ahmed Hassan / Tao Xie**  
 Date: **12-May**

## 1. About you

[1.1 - 1.3 are personally identifying questions]

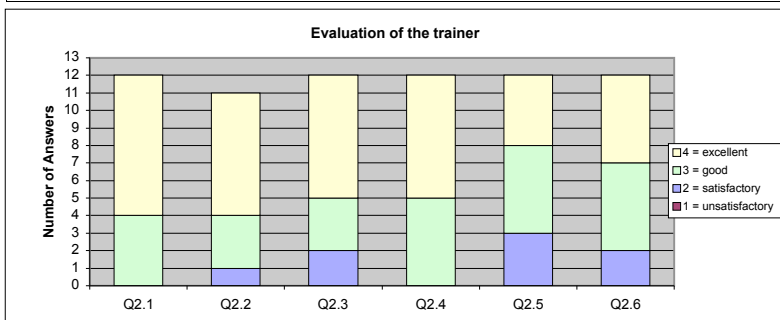

1.4 Your previous level of knowledge of the course subject area was...  
 (4 = very good, 3 = competent, 2 = basic, 1 = poor)

1.5 How useful will this course be in your working role ?  
 (4 = very useful, 3 = useful, 2 = adequate, 1 = of little use)

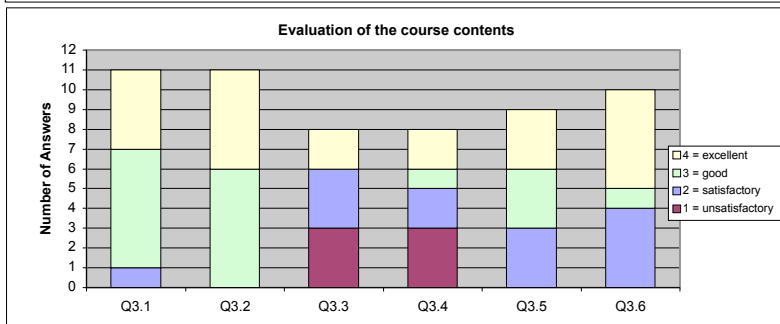

## 2. Your evaluation of the trainer

2.1 Expertise of the trainer ?  
 2.2 How well did the trainer structure his/her lectures ?  
 2.3 How well did the trainer engage the course participants ?  
 2.4 How well did the trainer react to participants questions and other interactions ?  
 2.5 How well did the trainer manage the course schedule ?  
 2.6 How well did the trainer ensure the course goals were met ?  
 (4 = excellent, 3 = good, 2 = satisfactory, 1 = unsatisfactory)

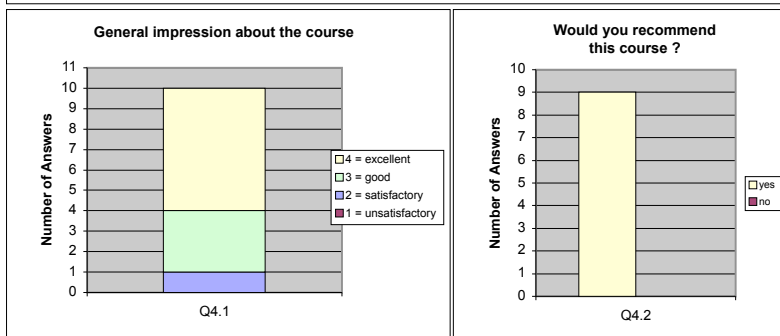

## 3. Your evaluation of the course contents

3.1 Clarity of the course goals ?  
 3.2 Subjects in relation to the course duration ?  
 3.3 Time for practical exercises ?  
 3.4 Use of practical exercises ?  
 3.5 Structure and contents of the course material ?  
 3.6 Course material as a useful learning tool ?  
 (4 = excellent, 3 = good, 2 = satisfactory, 1 = unsatisfactory)

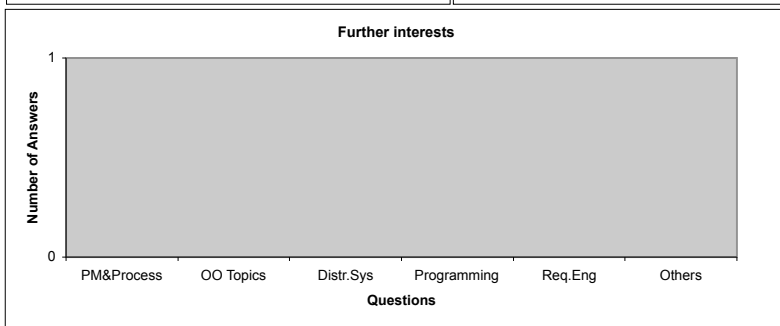

## 4. General impression of the course

4.1 How would you describe your overall impression of this course ?  
 (4 = excellent, 3 = good, 2 = satisfactory, 1 = unsatisfactory)  
 4.2 Would you recommend this course?  
 (yes, no)

## Interests in further instruction in key technologies?

Project Management & Process Topics  
 OO Topics  
 Distributed Systems Topics  
 Development & Programming  
 Requirements Engineering & Management  
 Others

## Course Evaluation Summary

Company: #REF!  
Type of course: ICSE 2008 Tutorial  
Trainers name: Ahmed Hassan / Tao Xie  
Date: 12-May

---

**Comments on 1. About you**

Excellent  
Good overview of state-of-the art in Mining SW artifacts  
Well prepared

---

**Comments on 2. Your evaluation of the trainer**

Excellent tutorial. Very well attended. Very well presented and interesting

---

**Comments on 3. Your evaluation of the course contents**

It would be good to have some written explanation for the slides  
it was good not to waste time with exhaustive practical exercise

---

**Comments on 4. General impression of the course**

Good overview on the field! Not restricted to their own research work!

---

**Additional comments (Criticisms / suggestions / comments?)**

---
